### STAGE Set-Up

Below is a rough drawing of our stage. We use a set stage of 4 rows of 4 – 4' x 8' risers. Please indicate where you would like equipment set. We will do our best to make sure everything is set to your specifications.

We will have 6 cordless mics w/stands available. We also have three mic cradles that hold 2 mics each. Indicate where you would like each mic (this will aid our sound technician). Please indicate with a “C” where you would like to use a mic cradle (and how many mics in each cradle – up to 2).
